Wharf Plan Rejected. The Committee on Finance reported favorably a resolution approving the award of contract to the Raymond Concrete Pile Company, of Baltimore, for the erection of a reinforced con-crete bulkhead wharf to cost \$33,780, with an amendment to provide for. blasting out a ledge of rock in front of the proposed wharf so as to increase

the depth of water.

Mr. Pollock led the opposition. He was not opposed to a wharf of reasonable cost, he said, but did not think it wise or expedient to erect a concrete structure. The business of the harbor, he thought, would not warrant such an expenditure, a timber wharf covering half the space being all that is needed for the present. Mr. Rogers, chairman of the James River Improvement Committee, said the Council was committed to a said the Council was Tuxedo e. committed to a concrete wharf, and traced the history of the movement pending for two years. The committee, he said, had once recommended a timher wharf for \$21,500. The Council informed that concrete could be used for about one-third more, and had instructed that bids be secured. The blasting of the rock ledge, he stated would cost \$5,400, and would have to \$2.00. be done, whatever kind of wharf was

Mr. Fuller thought a wharf was necessary to keep "p competition in rates, but thought a pile wharf could be built for \$15,000 which would answer every purpose. Mr. Umlauf wanted to go slow and get more light. Mr. Mills thought it poor business to go into such a proposition without knowing the whole cost of dredging. If there was so much demand, he the shippers would provide their own

Mr. Powell explained the importance from a business standpoint, saying that when the James River Navigation Company sold out to the Old Dominion Steamship Company freight rates mped 50 per cent. Mr. Ratcliffe bught Richmond was losing business for lack of proper wharf facilities.

Mr. Lynch wanted to fix Lester Etreet first, and he wanted to do that "without letting those Marshall Ward people come in and make a mess of

Mr. Pollock said there was no assurance of any additional trade to use the wharf, that the mere ownership of the land was sufficient as a whip over the railreads.

For Fireproof Building.

Mr. Rogers offered an ordinance to require the fireproofing of all hotels, lodging houses, school houses, public stations, garages, hospitals and asylums which exceed three stories or forty feet in height. The Building Inspector is prohibited from issuing any permit for new work or alterations not in conformity with these requirements. Another measure offered by Mr. Rogers prohibits the owner, tenant or lessee of any uninclosed lot from excavating within five feet of the line of any street to a greater depth than five feet without first obtaining a permit from the Building Inspector, who shall prescribe precautions to protect against accidents.

Danville, Va., February 5.—Dewey Clifton, a young white hoy of Schoolfield, was struck and instantly killed by a fast through freight in that village yesterday afternoon. He was walking along the track with several friends, and in stopping from the south bound track to avoid a train stepped directly in the path of the freight. He was hurted about twenty-five yacds, and when picked up life was extinct.

The remains were taken to Stuart this afternoon for interment.

Committees of Norfolk and Portsmouth Hold Meet-

local members of the body presented a plan for the union of the two cities under one municipality that, it is declared, should appeal to the people across the river. Under the proposed terms of consolidation the government of Portsmouth is to remain unchanged for five years, the Mayor at the time of the consolidation to remain in office, and all of the officers to be left undisturbed. In the election of Councilmen it is proposed to give Portsmouth its just pro rata, enember of the board of control and the mayoralty once in two or three terms. It is also provided that all revenue from faxation in Pertsmouth, over and above the cost of maintenance, shall be used in improvements in the Portsmouth wards.

The meetings was held at length, and will be followed by others. The effort is to win Portsmouth over to the proposition, the present sentiment being strongly against consolidation.

He Has No Idea of Indorsing Sheehan for United States

"There is no truth in the reports that I am preparing a statement to be made in favor of the election of Mr. Shee-han," he said, "nor do I intend to make any such statement. My position on the senatorship is unchanged." This statement set at rest rumors circulated during the day that the Gov-

ernor had yielded to the pressure exerted to induce him to stray from his policy of non-interference and indorse Mr. Sheehan's candidacy. Both Tammany Leader Charles F Murphy and Senator Roosevelt, the Insurgent leader, called on Governor Dix to-day, As Senator Roosevelt leaving a friend inquired: "I suppose

you are prepared to continue the fight if it takes all summer, as Mr. Murphy suggests?" "Yes, until fall," was the Senator's rejoinder.

Reports of impending desertions from the insurgents' camp were de-nied to-night by Assemblyman Miller. The seventeenth joint ballot on the senatorship to-day was as ineffective as those that have gone before. to change in the relative strength of the candidates.

Former Governor Glenn, of North Carolina, in a speech before the As-sembly, following to-day's joint bailot, declared that "The eyes of every State in the country are on the Legis-lature of the State of New York, watching to see who is to be elected the next United States Senator." "Don't wait too long," he cautioned, "or the present harmony that exists in the party will be upset. This would spoil our chances of electing a President of the United States in 1912."
